Date: 5/27/2016 **Status:** Inspection**Author:** Kangas, Kathleen**Updated Oil Volume:****Updated Salt Water Volume:****Updated Other Volume:****Updated Other Contaminant****Notes:**

On site initially at 2:30 p.m. and was asked to come back a bit later as on-site personnel were doing maintenance. Came back at 5:15 p.m. 66 degrees F, mostly cloudy, wind 4 mph WSW. Inspected area of fire east of the large flare on the south part of the facility. A small area (roughly 10 ft X 20 ft) was burned. Fire had been extinguished (and appears to have been put out quickly due to the small area impacted).
